Industry-leading, customer-focused aftermarket services that prolong your pollution abatement system’s life, minimize operating costs and streamline your parts procurement process.

PARTS
Reduce downtime, stay in compliance, and always be prepared with a spare parts program designed to your abatement system parts needs.

- Spare parts for Anguil and competitor abatement systems
- Critical spare parts packages
- Convenience inventory recommendations
- Email notification with tracking number(s) upon shipment
- Assigned Project Coordinator for parts requiring service
- Extensive vendor network for advantageous pricing and pre-negotiated terms and conditions
- Stock of critical parts kept inhouse for fast shipment

SERVICE
Service and maintenance on any make or model, regardless of original manufacturer for compliance and improved system reliability.

- 24-hour emergency service
- Preventive Maintenance Evaluations (PMEs)
- Troubleshooting visits
- Operator training sessions
- System airflow balancing
- System Destruction Rate Efficiency (DRE) check-ups
- Catalyst & media services
- Rockwell Priority Dispatch
- Remote Monitoring

The Anguil Advantage
Our value-added approach is designed to save you time and money.

CUSTOMER FIRST FOCUS
We’re here for you. Our expert Field Service Engineers are one phone call away and ready to assist 24/7, 7 days a week.

PARTS
Spare parts simplified. Leverage Anguil’s vendor network to streamline your parts procurement process.

ROCKWELL PREFERRED
Get in front of the line. Anguil’s vendor relationships gets you preferred service and support from Rockwell Technicians.

Anguil Customer Service
(414) 365-6400  aftermarket@anguil.com  www.anguil.com
Your single source for air and water pollution control systems.

Environmental and Energy Solutions that Ensure Cleaner Air and Water for Future Generations.

The Anguil Advantage
- Business stability and unparalleled expertise with over 40 years in business.
- Single source provider of fully integrated air and water pollution control systems for lowest cost of ownership.
- Over half of Anguil staff are degreed engineers.
- Regulatory compliance is guaranteed.
- Broad range of technology solutions ensure an unbiased equipment selection.
- Comprehensive Quality Assurance program and procedures.
- An established safety program with continuous training for Anguil field service engineers.
- Custom solutions developed specific to your application that maximize efficiency and minimize system life operation costs.

Air Technologies
Air pollution control systems for VOC, HAP, and odor abatement—capable of 99+% destruction efficiency.
- Regenerative thermal oxidizers (RTO)
- Catalytic, recuperative, and direct-fired thermal oxidizers and vapor combustors
- Emission concentrator systems

Wastewater Treatment
Wastewater treatment technologies for industrial and remediation applications.
- Fully integrated and turnkey systems
- Single source provider
- Engineering assistance, rentals, and pilot programs available
- Technology agnostic approach
- Advanced instrumentation, controls, and automation

Energy Recovery
Heat and energy recovery systems for improved efficiency and reduced operating costs.
- Air-to-air heat exchangers
- Air-to-liquid heat exchangers
- Heat-to-power
- Energy evaluations

Aftermarket & Service
Service and maintenance on any make or model, regardless of original manufacturer.
- 24/7 emergency service response
- Operating cost reviews
- System upgrades and retrofits
- Spare parts and component packages
- Preventive Maintenance Evaluations

Founded in 1978, Anguil Environmental Systems is a second generation family owned and operated environmental technology supplier headquartered in Milwaukee, WI USA with offices in Asia and Europe. With annual sales in excess of $50 million globally, Anguil has been a trusted air and water solutions supplier for over 40 years.
